Quality Custom Decals, Signs and Printed Products

(636) 486-4664 ~ Sales@DoctorDecal.com

SIGNS, POSTERS
AND BANNERS

22" x 14" Finished Size
No. 271

Edges are pre-glued for a clean finish.

Glued Posters

Glued Posters are printed and the edges are glued to achieve the finished size. Simply slide the poster over the frame and, while holding the edges, insert the frame into the ground. Political candidates, home contractors, and community organizers appreciate the easy to assemble construction for affordable yard signs.

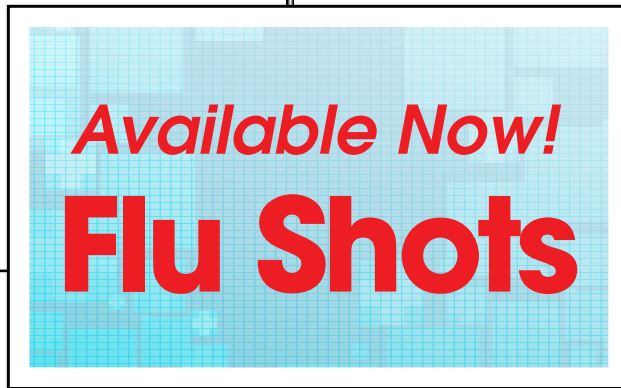

Material: These posters are supplied on weather-resistant poster board. When ordering fluorescent colors, we recommend a darker non-fluorescent second color for contrast. If using a photograph, spot Ultra Blue, Black or 4-color process is recommended. Please allow a 1/2" margin on outside edges. Bleeds are not available.

Frames: Frames are sized to specifically fit these posters and are included in the price.

Production Time: Approximately 5 working days.

Already folded and glued. Just slide over frame.

Glued Posters are easy to assemble. Simply slide the poster over the frame.

26" x 16" Finished Size
No. 272

4-Color Process: Fine detail and large solid colors should be priced as an additional color.

Frames are included in the price!
